# Management Trainee 2025

Air Liquide, a world leader in gases, technologies, and services for Industry and Health, is inviting passionate and driven fresh graduates to be part of our **12 Month Management Trainee Program in Operations and Project Management**. This program allows you to deeply explore your interest in the industrial gas industry while developing your professional skills and competencies.

### Who are we looking for?

- Bachelor's Degree in Engineering (Chemical, Industrial, Electrical, Mechanical and Civil)
- Entry-level applicants (2024 or 2025 graduates) or candidates with a maximum of 1 year of full-time work experience are welcome to apply.
- Demonstrated leadership qualities, excellent numerical and communication skills, ability to learn quickly, and the resilience to thrive in a dynamic environment
- Additional language skills (e.g., Mandarin and/or English) are an advantage
